Subject: Reclamation Surety Required, Marriott Rock Products, LLC, Rocky Point Gravel Mine, M/003/0079, Box Elder County, Utah

Dear Mr. Marriott:

On September 7, 2010, the Division issued tentative approval for the referenced project and subsequently published notice in Box Elder County and Salt Lake City newspapers for a 30 day public comment period. This comment period has now ended with the Division receiving no comments regarding the approval of your operation. The Division is now prepared to issue final approval of your project as soon as we receive the two clean copies of your Notice and the reclamation surety and reclamation contract.

As pointed out in our letter dated September 7, 2010, the required surety is \$281,000.00. The Division currently holds a total of \$37,200.00 for the Rocky Point (S/003/0042) and Marriott (S/003/0075) quarries. The new Rocky Point Notice of Intention to Commence Large Mining Operations includes the areas of these two small mines and will replace them. The Notices for the small mines will then be closed.

There are various ways to provide the surety, but the Division suggests that you provide a new surety for the entire site at which time the Division would release the other sureties. The reclamation surety can be in the form of a certificate of deposit, cash, a letter of credit, or a corporate surety bond. Please contact the Division's bonding coordinator, Penny Berry, for information about obtaining the correct bonding and reclamation contract forms. She can be reached at 801-538-5291 or by e mail at bondcoordinator@utah.gov.

Thank you for your work to complete the permitting process. If you have any questions regarding this letter, please contact me at 801-538-5261 or Lynn Kunzler at 801-538-5310.

Sincerely,

Paul B. Baker
Minerals Program Manager
